Join the APC in Victoria where we will bring the war on the poor to the front steps of the legislature. On this day, the Liberals will announce their budget - the parcelling of the money they made on the backs of poor people. This budget will be announced in the wake of the throne speech - the annual event where the Liberals praise themselves for their achievements in social cleansing. We do not think they should be allowed to celebrate in peace!

Across the province on this day of protest the APC is coordinating a series of 'political disruptions' targeting select government offices.

Our demands are the demands of the people - justice and dignity! Because we will never get these things from our government they must be defeated. Only through struggle and solidarity will the people begin building a movement for real economic equality.

★ WE ONLY GET WHAT WE ORGANIZE TO TAKE! ★
