APC's People's Inquiry into Police Violence
Policing the Struggle for Justice

Thursday
May 19 - 7pm
WISE Hall
1882 Adanac

All forms of resistance in Vancouver have been meeting with increasingly brutal forms of police repression. The Vancouver Police Department (VPD) have made it clear that their priorities include marginalizing and politically targeting people who voice their dissent. They have, in no uncertain terms, engaged in a campaign of creating a hostile atmosphere for any opposition in this city - doing their worst to frighten people away from otherwise non-violent protest.

Come join us at the first Eastside Assembly as we review some recent examples of police crackdown on activists, and engage in discussion of how the community can respond.

To win this fight, we must work together! Come find out how your strengths and skills can help build the movement in Vancouver.

UNITED WE WILL WIN!
