

911 EMERGENCY FILM FESTIVAL

Conspiracy Theories or Conspiracy in Practice?

*An evening of thought provoking film
designed to challenge your perceptions
about the events of Sept. 11, 2001.*

A week-long multi-city road show bringing to your community the issues and the questions that Michael Moore fails to address.

What really happened on Sept. 11, 2001? Did Flight 77 really crash into the pentagon? Did the World Trade Center buildings really fall down as a result of the plane crashes? Were these events really caused by Islamic fundamentalist terrorists? After watching these films, your own answers may very well be: "no, no, and no!" By examining these questions in the greatest of detail, the viewer is invited to take a deeper look at the so-called facts.

Where is the wreckage of Flight 77?

Using publicly available footage Black Cat will take the audience on an odyssey of video exploration and detailed scrutiny of the events of 9-11. Evidence and analysis from several recent documentaries will be presented and juxtaposed to give as much information as possible with the intent of enabling the viewer to consider all possibilities and arrive at one's own opinions and conclusions. Preconceived media-nurtured notions will be turned on their heads.

What is the bright flash on the planes that hit the towers?

Segments of the following films (and others) will be presented:

The Great Deception - The War on Terrorism, An Alternate View

Hosted by media critic Barrie Zwicker, this film offers provocative commentaries that challenge the official explanation for the Sept. 11.

911 In Plane Site

Hosted by Dave vonKleist of The Power Hour radio show, this astonishing film presents video and photographic evidence, eye witness accounts and first-hand testimony revealing the largest cover-up in modern day history.

Mohamed Atta and the Venice Flying Circus

Investigative journalist Daniel Hopsicker probes the conspiracy in Florida, revealing the connections between the hijackers, the Venice flight schools, the Saudis, and the CIA.

Did plane crashes cause the WTC towers to collapse?

Guerrilla News Network shorts (shown in their entirety):

S-11 Redux: (Channel) surfing the apocalypse

A sound-bit blitzkrieg challenging the messages we have been fed from our mainstream media and the government it serves.

The War Conspiracy

The CIA suppression of Peter Dale Scott's book of the same name points to sustained patterns of collusion and deceit involving powerful players and hidden forces within the U.S. government.

What caused this missile-shaped hole at the Pentagon?

Painful Deceptions

A video supplement to Eric Hufschmid's book, "Painful Questions: An Analysis of the September 11th Attack." The U.S. government's explanation about 9-11 is a conspiracy theory with almost no supporting evidence.

ADVISORY: This evening will last between four and five hours, plus time for discussion. The images and events of Sept. 11 are devastating and horrific. This program in its entirety may very well be too overwhelming for some.
