Socialist Party

NO TO FOUNDATION HOSPITALS

STOP NHS PRIVATISATION

YES TO GOOD QUALITY HEALTH CARE FOR ALL

Foundation hospitals are privatisation by the back door, which will lead to a two tier health service. It's an attempt to hide woefully inadequate government spending after years of neglect, with talk of "democratisation" and "accountability".

- For a properly funded NHS so that good quality health care is available to everybody.
- No more privatisation! Abandon PFI, take all the privatised services into democratic public ownership.
- A minimum wage of £8 per hour and a 35-hour week for all health service workers.
- Genuine democratic control of the NHS, involving the trade unions, patients, carers and elected representatives. Senior managers should be accountable to elected bodies.
- Nationalise the pharmaceutical industry, integrate them into a democratically controlled NHS.
- Massively increase spending on health care as part of a socialist planned economy.
