

PostScript Picture

Chenalho Zone in Mexico, 45 people were massacred (39 were women and children). This was carried out by the Chiapan Caciques paramilitaries known as the White Guards who are armed and financed by the Mexican government. The leadership of these death squads are sent by the Mexican army for training in the School of the Americas, U.S., where they are advised by the secret services of Argentina, Israel, England, and Spain in counter-insurgency.

The Chenalho massacre is an act of dirty war planned and directed by the Mexican government. It is a terrorist act that seeks to frighten the masses in order to isolate the insurgent movement from its bases. A military action evaluated for its political consequences, thinking that it was an ideal moment, just before Christmas, so that there would be less political response.

There was a warning that this massacre would take place the day before it happened. Moreover, it took place 200 meters away from a heavily watched military zone occupied by State security police. Therefore we are asking that people do not travel to Mexico or purchase goods made in Mexico. As to goods made in Mexico, if they are purchased it should only be from outlets that openly state their hostility to the Zedillo government and the PRI.

PLEASE BOYCOTT  
TRAVEL AND  
TRADE WITH  
MEXICO!
